June. 2023- August 2023

- Analysis in gender and racial-ethnic diversity of top corporate leadership companies
-

Ventures

Director, **NEHCR** (Northeastern Centre for High School Research): a non-profit organization that aims to mentor high school students in research and critical thinking, free of charge. Currently in the process of acquiring 501 certification, with the help of Prof. Mukund Iyengar of Stevens Institute of Technology.

Co-Founder, **Shui Aseng** (Luke Rimmo Loyi Lego, Jonah Diaz): Our company is in its initial stages, with a primary focus on pioneering personalized medication management. We're delving into computerized solutions for chronic disease management in elderly patients (focussed on heart health), aiming to enhance medication adherence and healthcare outcomes. Currently, we're immersing ourselves in research while developing discreet health monitoring devices with the help of the Stevens Centre for Healthcare Innovation, to seamlessly integrate with our platform, fostering tailored care and direct physician engagement.
