Work Experience

Steven's Institute of Technology | Hoboken, NJ

Grader in Mathematics Department   January 2023 – May 2023

- Assessed the homework of 52 students weekly based on accuracy and in alignment with the professor's grading scale.
- Responded to student emails and regrade requests within a timely manner.
- Imported final grades using Speed Grader and provided feedback to students to inform them on where improvements could be made.

Projects

Steven's Game Development Club| Hoboken, NJ

Game Jam S submission   October 2022

- Formulated a strategy for creating a short game within a 2-day period, deciding which parts of the design process to emphasize on to deliver a minimum viable product.
- Programmed and implemented ideas from my initial concept, learning what compromises on my vision would need to be made.

Activities

Steven's Game Development Club| Hoboken, NJ

Treasurer   May 2024 - Present

- Budgeted for weekly meetings and events and took charge of catering ahead of time.
- Helped decide meeting topics as well as holding some meetings of my own.
